

Table A.1. Growth and pigmentation of *Trichoderma asperellum* on Potato dextrose agar (PDA) supplemented with various concentrations of sodium salt (saline conditions).

Concentrations of sodium salt (mM)	Number of days for full colony growth on PDA	Pigmentation
0	3	Green
50	3	Green
100	3	Green
150	3	Green
200	4	Yellowish green
250	4	Yellow
